

11400 South & State Street Intersection

Project Description: **Design and reconstruction**

This project is a local government project sponsored by Sandy City that will improve the intersection at State Street and 11400 South. Construction activities include:

- Intersection re-alignment
- Minor roadway widening
- Drainage improvements
- Minor surface grinding and resurfacing
- Traffic signal installation
- Landscaping

Total Project Budget: \$3.6 million

Anticipated Schedule: The 11400 South at State Street Intersection project has moved forward with utility work this fall. Reconstruction activities to improve safety and traffic flow through this busy intersection will commence in spring 2006. Granite Construction is the general contractor.

NOTE: Schedule information listed above is estimated and could change without notice based on funding, scheduling constraints, stakeholder issues, and other unanticipated project elements.
